Subject: CES-Mendota T&M evaluation
Attachments: Evaluation of CES Mendota Testing and Monitoring Activities.docx

Good afternoon Calvin and Kate

Attached please find Cadmus' evaluation of the injection and post injection phase testing and monitoring strategies for the Mendota site. We also evaluated the QASP and our notes are included in the attached.

Please let me know if you have any comments or questions. Have a great weekend.

PS. The last report to be provided is our evaluation of construction and plugging procedures. We hope to send that in the next week or so.
